

Celebration of Unity Expo at Martin Luther King Day observance

Thank you for agreeing to participate in the West Chester/Liberty Township observance of Martin Luther King Day. The purpose of the day's events is as follows:

**To provide a family-friendly, community-wide event
to focus attention on why we celebrate this national holiday;
To consciously examine the values and ideals
that Rev. Dr. Martin Luther King, Jr. gave his life to defend;
To allow our community a time and a place to consider
how his dream lives on in our lives today;
and to evaluate how effectively we are reaching the goals of mutual benefit
that he proposed.**

Therefore, in keeping in line with these goals, we invite you to set up a table or booth area no larger than 8 feet wide by 10 feet long in the Main Street hallway of Lakota West High School to share information about your culture. You will have to supply everything you will use. The display will be open from 10:30 a.m. to 1:30 p.m. on Monday, January 20, 2020. The school will be open for you to set up starting at 9:30 a.m. that morning. You will need to have everything cleaned out by 2:00 p.m. Volunteers will show you where your booth will go. Participants in the March for Unity, the program that follows it, and the lunch that follows that will be free to browse the lobby displays between events. All booths must be registered with the Live the Dream organization no later than Friday, January 10, 2020.

Culture or Country to be highlighted: _____

Contact person: _____ Phone: _____ Email: _____

What we will have at our booth (please be as descriptive as possible):

If another person from your culture/country would also like to have a display, are you open to sharing the space with them? Yes / No

Individuals, families, or groups may work on each cultural/country's display. We will try to have a good representation of a variety of cultures. Our hope is that community members will stop by to view what you have brought to share and to speak with you in order to learn about your homeland and therefore learn about commonalities and differences between us all.
